

Prices

Description:

The *Prices* block displays a price comparison in the form of cards. These are always the same width and are displayed next to each other on a dark background. When mobile, the cards are displayed one below the other from left to right. A text is displayed centred above the cards. A title, a price, a text and a link are displayed in the centre of the cards. This link is displayed as a button in black

Settings:

1. The number of cards can be set (1 - 6; default: 3)
2. For each card, you can set whether it should be highlighted
 - If a card is highlighted, the background is black and the title and link are displayed in the **primary colour**
3. A heading can optionally be placed in front of the introductory text
 - If this is activated, the heading size can be selected (H2 (default), H3, H4)
4. The dark background can optionally be replaced with an image
 - The set image is displayed under a grey overlay so that the text is still legible
